

## High experience in packaging industry since 1987

İBER AMBALAJ SAN. VE TİC. A.Ş. was established under the name of TÜRKER AMBALAJ SAN. VE TİC. LTD. ŞTİ. by our board chairman, İbrahim AHTIKALMAZ in İzmir in 1987. Then it has been continuing to corporate by changing its title as İBER AMBALAJ SANAYİ VE TİCARET A.Ş. since 03 March 2017. In addition to its 100% recyclable corrugated cardboard box production, our company has started to manufacture cardboard edge protector since 2003 and it became one of the leader companies in this sector in the short time. Today, it continues its production by increasing its capacity as 80% more with the technological investments at its new factory moved to Turgutlu Industrial Zone in 2009.

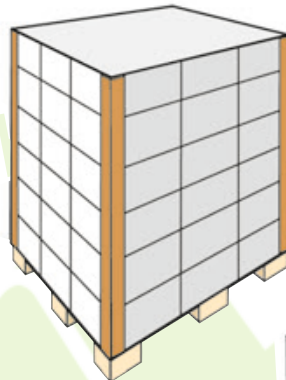

By the following the new domestic and abroad technological developments together with its young & dynamic staff, İber Ambalaj always improves its products' quality and its production capacity by the researchs and the development works, it represents professional solutions supported by the technology to our clients while keeping its high quality and price stability.

Our company which takes the principle of customer pleasure as a mission, it gained a rightful place in domestic sector with quality, reliability and delivery guaranty on time so it also became a well-known name at international markets with its increasing exports day by day. Due to its geo-logistical advantages, we can export our products throughout the world.
